ON CENTER SOFTWARE ANNOUNCES NEW PARTNERSHIP WITH CLARKDIETRICH™ BUILDING SYSTEMS

The Woodlands, Texas (March 18, 2013) — [On Center Software](#), the first name in construction automation, announces today a new partnership with [ClarkDietrich Building Systems](#). Through this strategic partnership ClarkDietrich's industry-leading steel framing construction products are now available for immediate access by contractors with the On Center Software Quick Bid® estimating software.

For more than 25 years, Quick Bid has been the preferred bid estimating solution for construction professionals. The highly intuitive software enables contractors to easily, accurately, and consistently increase project win rates and profit margins. By automating many of the functions that are typically entered manually, Quick Bid improves ramp-up time, eliminates discrepancies and improves bottom line profits for the smallest to the biggest of projects. The award-winning software also provides gains material quotes, identifies and analyzes risk factors, measures and analyzes project progress and also provides printable reports.

"As the leading manufacturer of interior steel framing products, we go through an exhaustive selection process to identify leaders that share our commitment to delivering the highest value to our customers," says Jim Collins, Chief Information Officer, ClarkDietrich Building Systems. "On Center Software complements ClarkDietrich's industry-leading steel construction products perfectly by helping our customers win more projects and allowing them to more effectively manage bid estimating, material flow, budgets and schedules."

ClarkDietrich Building Systems offers a comprehensive lineup of cold-formed steel construction products and services across the United States and abroad. The company manufactures a full line of innovative products for interior framing, interior finishing, exterior framing and floor framing, as well as clips, connectors, metal lath and accessories.

"We take pride in our ability to partner with industry leaders such as ClarkDietrich Building System. Working together we will deliver the best combination of automation and materials to steel framing contractors," states Cecilia Padilla, President of On Center Software. "On Center Software and ClarkDietrich are committed to quality that encompasses the integration of solutions and products, customer support, and training into a customer's full lifecycle experience. The success of our customers is the very business of On Center Software and its partners."
