

# PEACE OF MIND DEFINED.

A quick guide to getting a Complimentary Specification Review. ClarkDietrich specification reviews are performed by our Architectural Services Group—a team dedicated to expert support and answers. Rest assured, this unique offering stands apart for far more reasons than being free.

## WHY GET A SPEC REVIEW?

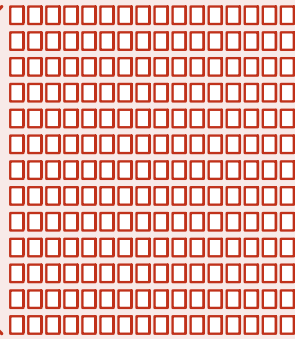

### 1. Mistakes happen.

We review an average of

**200** specs every year

IMPROVING

**100%** of them.

### 2. Recycled specs are perilous.

Specs based on older masters run the risk of:

Out-of-business company references	Unavailable/incorrect products named
Outdated code citations	Lack of reference to current trends (such as sustainability)

### 3. Your time matters.

Tedious spec reviews easily consume precious hours. Let us take these complicated sections off your plate:

Division 5	Section 054000	Cold-Formed Metal Framing
	Section 092216	Non-Structural Metal Framing
Division 9	Section 092116	Gypsum Board Assemblies
	Section 092400	Cement Plastering

### 4. Small errors have big impacts.

SPECIFICATION MISTAKES CREATE:

- Callbacks
- Substitution requests
- RFIs

ALL OF WHICH LEAD TO:

- Increased costs
- Time lost
- Added frustration

## WHY TURN TO CLARKDIETRICH?

### 1. Our experience speaks volumes.

**1,700** spec reviews completed since 2011.

### 2. Our expertise is considerable.

Your specs will be reviewed by not just anyone, but by a:

<b>CDT® (Construction Documents Technologist)</b>	<b>Specialist in cold-formed steel who knows:</b>
Trained Tested	Experienced Certified
	EQ gauges EQ coatings STC
	UL fire ratings Wall assemblies Limiting heights

### 3. Our process is comprehensive.

**WE CHECK IT ALL.**

[Most manufacturers only review Part 2]

- Part 1: General
- Part 2: Products
- Part 3: Execution

**48** HOUR

Average turnaround for most reviews.

### 4. Our relationships are different.

Unlike some manufacturers, ClarkDietrich values:

- |   |   |   |  |
|---|---|---|--|
| <b>1.</b><br>Going beyond typical sales rep's knowledge | <b>2.</b><br>Sharing information, versus pushing for a quick sale | <b>3.</b><br>Avoiding use of proprietary language | <b>4.</b><br>Steering clear of stacking your specs |
|---|---|---|--|
